🏦 Bank Marketing AI

Predict whether a customer may subscribe to a bank term deposit. Enter customer details and let the machine learning model make a prediction.

👤 Customer Information

What is this app?
This app uses a trained Random Forest classification model to estimate whether a customer will subscribe to a term deposit after a bank marketing campaign. The prediction is an estimate, not a guarantee.

Predict Subscription

📊 Prediction Result

NO — The model predicts that this customer may not subscribe to a term deposit.

Estimated Subscription Probability

39.0%

This percentage is the model's estimated probability, not a guarantee of the customer's decision.
